

Setup Guide - PPPoE – Win XP

1. Click "Start"
Then hover your mouse over "Connect To"
Select "Show all connections"

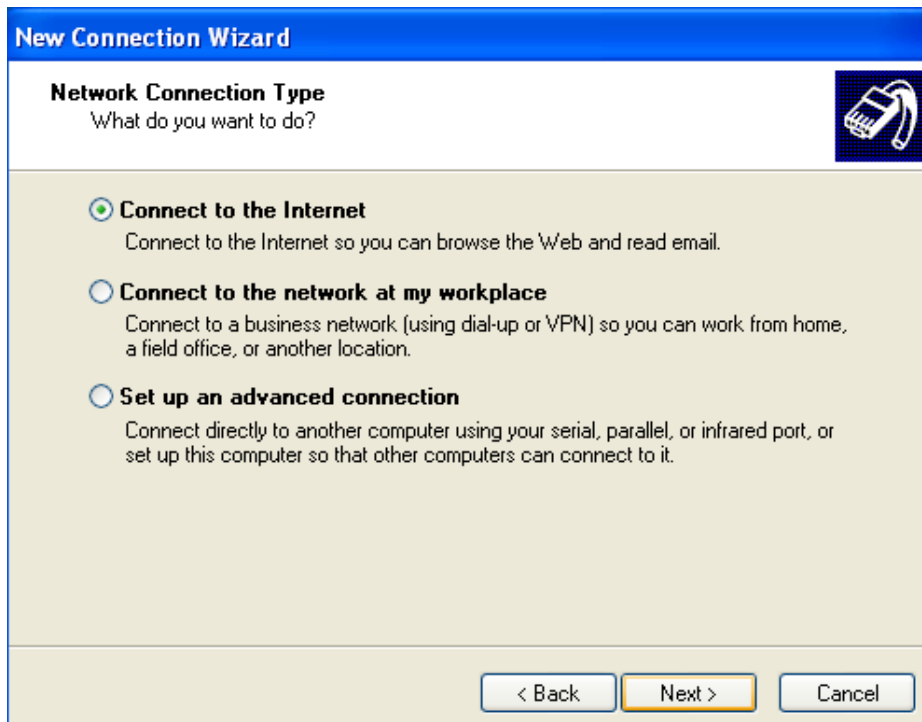

2. From the window that just appeared;
Click "Create a new connection" on the left hand side of your screen.

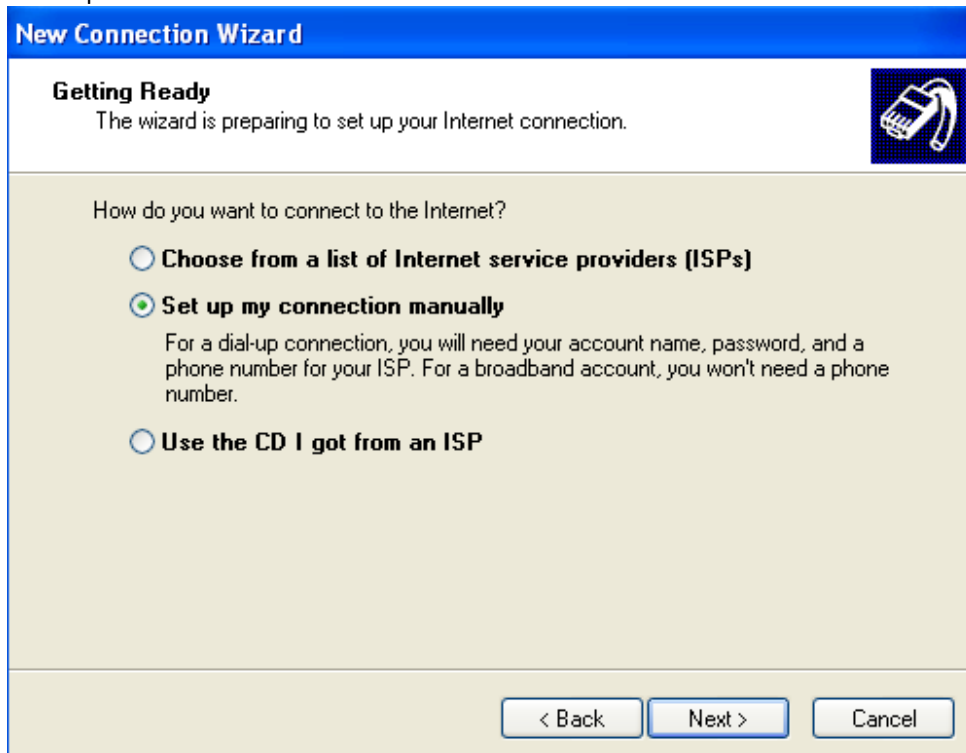

3. Press "Next"

4. Select "Connect to the internet"
Then press "Next"

5. Select "Set up my connection manually"
Then press "Next"

New Connection Wizard

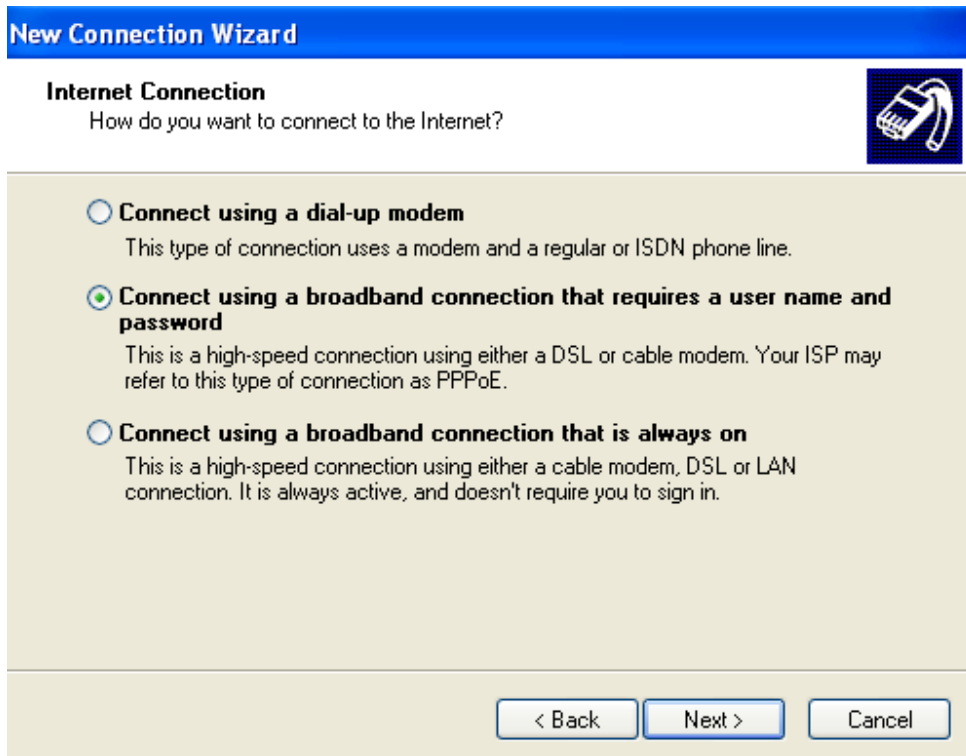

Getting Ready
The wizard is preparing to set up your Internet connection.

How do you want to connect to the Internet?

- Choose from a list of Internet service providers (ISPs)**
- Set up my connection manually**
For a dial-up connection, you will need your account name, password, and a phone number for your ISP. For a broadband account, you won't need a phone number.
- Use the CD I got from an ISP**

< Back Next > Cancel

6. Select "Connect using a broadband connection that requires a user name and password"
Then Press "Next"

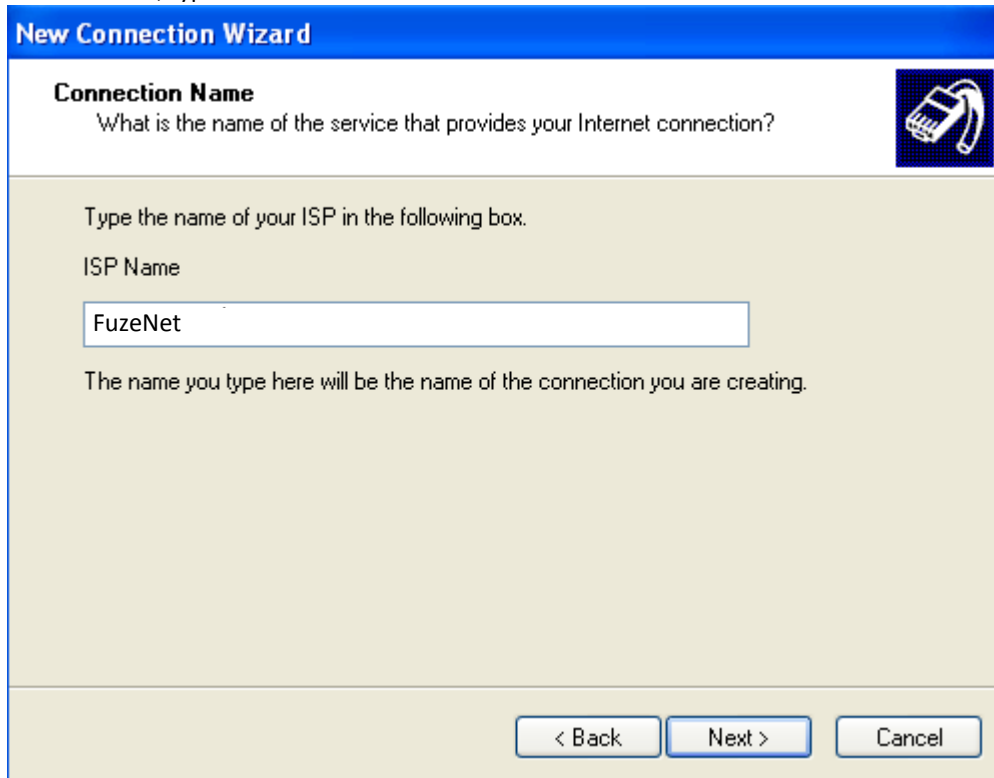

New Connection Wizard

Internet Connection
How do you want to connect to the Internet?

- Connect using a dial-up modem**
This type of connection uses a modem and a regular or ISDN phone line.
- Connect using a broadband connection that requires a user name and password**
This is a high-speed connection using either a DSL or cable modem. Your ISP may refer to this type of connection as PPPoE.
- Connect using a broadband connection that is always on**
This is a high-speed connection using either a cable modem, DSL or LAN connection. It is always active, and doesn't require you to sign in.

7. In ISP Name, type in: FuzeNet

New Connection Wizard

Connection Name
What is the name of the service that provides your Internet connection?

Type the name of your ISP in the following box.

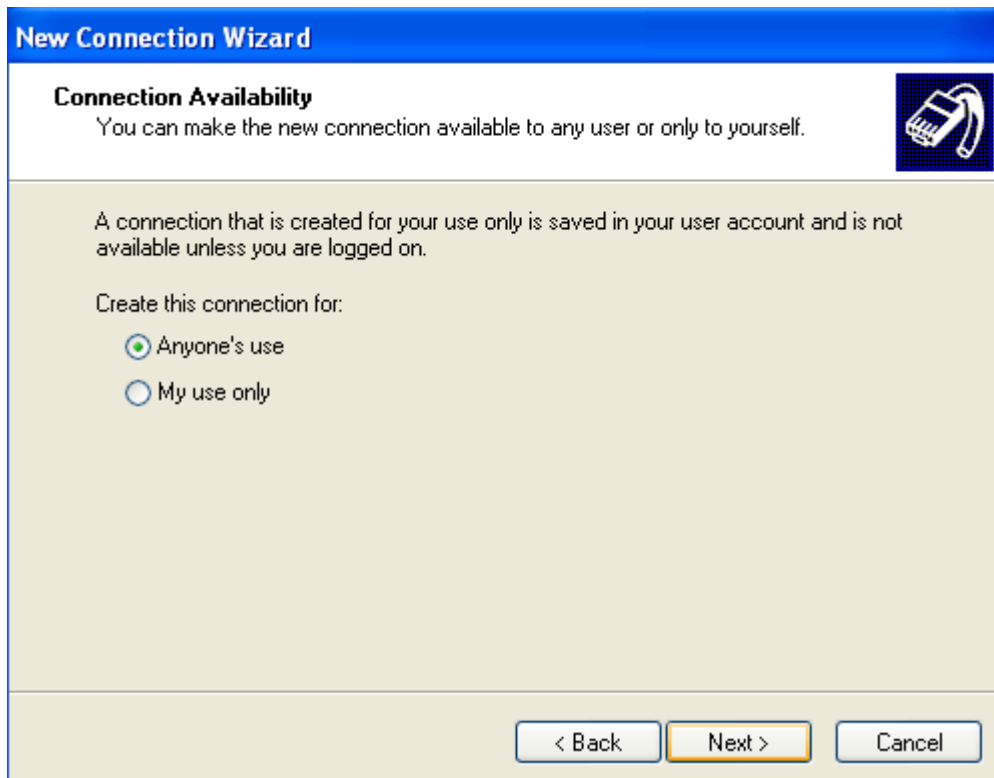

ISP Name

FuzeNet

The name you type here will be the name of the connection you are creating.

< Back Next > Cancel

8. Press "Next"

New Connection Wizard

Connection Availability
You can make the new connection available to any user or only to yourself.

A connection that is created for your use only is saved in your user account and is not available unless you are logged on.

Create this connection for:

Anyone's use

My use only

< Back Next > Cancel

9. In the next screen (shown in the screenshot below) enter in:
- User name: (Your FuzeNet username). Make sure you use the full email address for the username.
 - Password: (Your FuzeNet password)
 - Confirm password: (Your FuzeNet password)
 - Use this account name and password...: Ticked
 - Make this the default internet connection: Ticked
- Then press "Next".

New Connection Wizard

Internet Account Information
 You will need an account name and password to sign in to your Internet account.

Type an ISP account name and password, then write down this information and store it in a safe place. (If you have forgotten an existing account name or password, contact your ISP.)

User name:

Password:

Confirm password:

Use this account name and password when anyone connects to the Internet from this computer

Make this the default Internet connection

< Back Next > Cancel

10. Tick "Add a shortcut to this connection to my desktop"
 Press "Next".

New Connection Wizard

Completing the New Connection Wizard

You have successfully completed the steps needed to create the following connection:

- FuzeNet
- Make this the default connection
- Share with all users of this computer
- Use the same user name & password for everyone

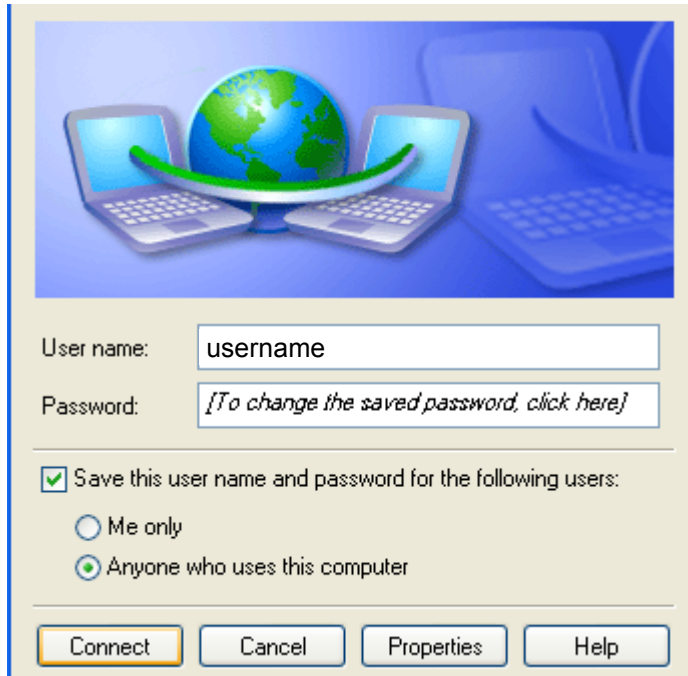

The connection will be saved in the Network Connections folder.

Add a shortcut to this connection to my desktop

To create the connection and close this wizard, click Finish.

< Back Finish Cancel

11. Press "Connect".

You will then be able to enjoy your new FuzeNet internet.
