Depending on your site location and the access technology employed you may also require a modem to obtain a service from FuzeNet. FuzeNet can supply you with this equipment should you need it. If you already have a modem then you can use that however please note the FuzeNet customer service will only service modems supplied by FuzeNet. Each Huawei HG659 router is chargeable for \$99 with an additional shipping fee of \$19.95 (if required).

Availability of FuzeNet service varies by site. Should you cancel your service during the Minimum Period/Contract term you will be charged a termination fee. Service Billing

FuzeNet issues accounts monthly in electronic form and bills you in advance. Your billing date is determined by the service activation date, however you will receive an Account around the same time each month. The due date is clearly printed in the top right hand corner of your invoice and falls between 14-30 days after account issue. If payment is late, \$5 late fee will apply.

If there are insufficient funds in your nominated account, a dishonour fee will apply; cheques incur a charge of \$16.50, Direct Debit rejections incur a \$10 charge (both incl. GST).

If you believe there is a discrepancy with any part of your bill, please provide written notice of this before the due date. We will then investigate; your service will not be disconnected while the bill is in dispute or for 60 days after issue, whichever is shorter. Until your concern is resolved, you may need to pay an amount based on prior usage. If our investigation concludes the unpaid amount was correctly billed, payment will fall due immediately. If you dispute this outcome, your State Ombudsman may be of assistance.
